Billy

- Can speak Ancient and Modern Greek, some Arabic, French and Italian, also Turkish, Perdani and Hindi
- Took 3-4 weeks to learn a language but then quickly forgotten if not used
- Has had problems with growing plants in their green house but everything should be restored
- The negative energies have become independent and hinder Billy's work and become more dangerous to his health
- Three weeks ago in the front of the house, for the second time, Billy was transported through the air, as if beamed and thrown to the side which tore open his back, injured his right knee, thigh, arm and elbow and he hit the right side of his head which caused much swelling and bruising on his body
- Billy will be going to the hospital on Aug 4 to address a tumor on his elbow and blood clot which are not improving
- He may use self-healing for a longer period
- Learned to be tough when dealing with personal pain or injury rather than taking pills or medication
- Broke his right shoulder 3-4 years ago when thrown from ponies which the surgeon recommended would need a new socket and ball joint however Billy self-healed from the injury
- Billy helped 3 nuns heal psychologically after they were coerced into sex with their superiors for years all in the name of Jesus Christ

Plejaren

- The population know about everything that is discussed and decided politically by the state leadership
- All meeting discussions and decisions are broadcast so every person of all the planets can intervene if they find this necessary
- The Plejaren adopted neutrality as a society more than 52,000 years ago which allows dealing freedom and peace for humanity
- At one time Sfath and Semjase were able to visit earth people however this is no longer possible because the behavior of the earth people has deteriorated so much since then that all their extensive security measures no longer guarantee their safety
- Do not think highly of the concept professional athletes being paid but rather they should do good honest work instead
- Recorded conversations of the Americans telling Zelensky that all of Europe's freedom depends on Ukraine winning the war, and all means necessary must be used against Russia and Putin
- Ptaah's ancestors first came to earth about 25-million years go

Religion

- The majority of Earth mankind are becoming more religious
- In the Christian faith pedophilia is still a problem with priests and those in the high echelons
- The USA is contaminated with Christian sectarianism, the Arab world with its Islam, as is India with Hinduism

Bible

- Goliath was 250 cm (8.2 feet) high

Hitler

- Hitler was called Hiedler and is still stubbornly concealed today
- He was a drug addict
- Was conceived through incest by his father with his own daughter, who was Hitler's sister
- He suffered from mental illness since childhood and suffered from episodic schizophrenia

Metal Sample Analysis

- Dr. Vogel analyzed a Plejaren metal sample and found the elements did not have a normal atomic spectrum therefore were combined in an unusual way using non-electric cold melting process possibly in a vacuum
- The CIA wanted the sample and threatened Dr. Vogel so the Plejaren took the sample back for safety and, as further analysis would have been 200-years too early for mankind to know

Nature

- Tiny life-forms exist that evade discovery comprised of the finest bioaerosols or the tiniest microorganisms, which cannot be determined with mankind's current apparatus
- About 75% of the insect world has already been eradicated by mankind's poisons (neonicotinoids)

Politics

- A great deal is negotiated and decided by many world leaders in all the countries but this remains secret and therefore does not reach the public

SETI

- The SETI project should never have been built - no reason is provided

Neanderthals

- They harvested resinous tree branches that were lit on fire by lightning which they carried and protected to make fire
- Billy was with Sfath when he taught the Neanderthals how to make fire with flint
- To make fire required special rocks such as pyrite or marcasite which had to be searched and found and then broken using other rocks and was tedious training Neanderthals who were unfamiliar with these methods

Invasive Plants

- Neophytes are foreign plants that are not invasive and not detrimental to nature and its flora and should not be combated
- In 80 to 100 years many neophytes or new plants from foreign countries, which are intentionally or accidentally introduced, will become feral and be integrated in such a way that they are native locally
- It is a delusion that all neophytes must be eradicated to protect native plant species

Teratoma

- Teratomas develop in the early stages of conception which are very tiny and mobile and may become lodged in parts of the body including the brain
- A teratoma is an independent organism within the body able to create its own bones, hair and even teeth
- It is usually, but not always, an autonomous benign structure or tumour that forms from the stem cells or germ cells of the ovaries in women and from the testicles in men but are not cancerous but none-the-less can be quite painful

Neutrality

- Neutrality presupposes that peacefulness and non-partisanship must always be observed without deviation regardless of politics or military agenda
- Neutrality ensures that man is free and open according to his own will and without hindrance by unlawful state regulations and prohibition
- Neutrality has nothing to do with personal rights and the freedom of citizens but only with the state itself

Switzerland

- Switzerland's interference in the affairs of other countries violates its neutrality
- The Swiss government's lack of neutrality towards Russia and aligning with NATO's sanctions will ultimately lead to many deaths in Switzerland
- Federal Councillor Blocher, was voted out of office because he represented the freedom of Switzerland and the people, which was not liked by certain government officials
- This demonstrates that the incompetent Swiss government will dispense with anyone who disagrees with their misguided direction
- Most of the non-thinking Swiss population foolishly trust their government's decision to abandon their countries neutral stance and leaves them open to invasion unable to protect themselves due to their inadequate military
- Switzerland is no longer trusted by Russia and has become their enemy because the Swiss government because neutrality does not allow taking sides and taking hostile action against a foreign state
- Switzerland has never required a strong military because their neutrality has protected every citizen however now they are open to attack and unable to defend themselves

USA

- America wants to dominate both the Earth and space
- America spreads the worst lies claiming their space exploits are for the future good of mankind
- Very few people in Europe notice that America is flooding Europe with military to expand its powers
- America has been propagating religious sectarianism to Europe for quite some time, especially to Germany and Switzerland
- Billy shows Ptaah an article titled, “The Shadow Government” by Chris Hedges (2019) copied in the CR however they do not have time to discuss it
 - The United States of America is firmly in the grip of an invisible government, led by the country's intelligence services
 - There are two kinds of government in the United States: the 'White House', Congress, the courts, state legislatures and governors – and the invisible government, or deep state, where anonymous technocrats, intelligence officers, generals, bankers, entrepreneurs and lobbyists control domestic and foreign policy, regardless of which political party is in power.

Vaccines

- The effectiveness of a vaccine diminishes the more often one is vaccinated against the same viral infection
- Vaccines have a spreading effect and can impair the immune system by overloading it if administered more often than required
- If vaccinated too frequently the immune system no longer reacts well to new mutations of the same virus due to a weakened immune system and no longer offers protection against infection
- Two vaccinations against a virus is acceptable for the immune system, but a 3rd vaccination **within less than 12 months** is usually too much and can no longer prevent a new infection because the immune system loses mobility and effectiveness
- The vaccines were designed for the original covid strain and are no longer effective against the *new mutations* incorrectly called *new strains*

Corona Virus

- Pandemic is not over - yet
- Infections on the rise due to abolishing respirators and social distancing which need to be maintained
- Safety measures should be applied until there is a low risk of infection which will still be awhile
- Will never be eradicated and continue to claim victims even after 1000 years as the virus can settle and reappear in a new mutated form
- **The Corona epidemic origins**
 - In a laboratory which will remain covered-up for a long time
 - The disease was not intended to become a pandemic, rather cause an epidemic in the U.S. as an act of revenge
 - Upon agreement between the American and Mao to develop a virus to vengefully wipe-out the American population a virologist traveled to China and met with Mao to start research in a suitable lab
 - A virus was successfully developed in the late 1970's when a technician became infected and this first variation spread slowly
 - At the same time two female bats used for testing, were infected with the manufactured virus and escaped into the wild and infected the wild bats which became covid carries and by the end of the millennium (AD 2000) had mutated thousands of times
 - The virus did not originate with bats but rather in a lab, none-the-less the infected bats were able to infect humans
 - As a result the virus spread to humans who became infected and suffered numerous illnesses and even death
 - Meanwhile research continued in the lab with the development of the corona virus and again due to carelessness, a researcher was infected in Jan 2019 which resulted in spreading the virus to the rest of the world

Mankind

- This world and its people are dependent on money
- There are a lot of scammers where millions and billions are negotiated and crazy people lurk and swindle the naive
- Very few Earthly people have made evolutionary progress in their behavior through their own efforts to achieve inner peace and able to control themselves that they refrain from violence, hatred and war
- The military is never good for creating peace or for maintaining peace
- Humans have let themselves be enslaved by technology leading to the loss of the personal relationships
- Marital unions have become dependent on financial assets rather than spiritual bonds

Climate Change

- The brain of terrestrial people, as well as their ability to think, are adversely affected by climate change
- Young people and adults are becoming aggressive due to climate affects on thinking which induces organic changes resulting in stupidity, aggressiveness, thugs and evil doers
- Climate change affects the internal organs in the body and brain cause more health ailments and attention disorders that result in much mischief
- Climate change increases suffering due to rising heat causing death from heat stroke, heart failure or from skin cancer

NATO

- NATO hopes Russia's military will become bogged down in Ukraine and weakened by sanctions and diplomatic isolation, leading to Putin being ousted from power
- Pulitzer Prize-winning journalist, Chris Hedges states NATO is the most dangerous military alliance in the world
- NATO's future is outlined in its document "**NATO 2030: United for a New Era**," as a struggle for supremacy with rival states, particularly China, and calls for *preparation for a protracted global conflict*
- Russia, rich in natural resources such as energy, minerals and grains, and China, a manufacturing and technology giant, form a strong combination and they have become closer allies as a result of NATO
- Washington fears China's trillion-dollar Belt and Road initiative, which aims to link an economic bloc of about 70 countries beyond US control
- If China, Russia, Iran, India and other countries free themselves from the US dollar as a world reserve currency it will devalue the value of the US dollar and trigger a financial collapse in the US
- The loss of the dollar as the world's reserve currency will force the US to deal with the social and political upheavals triggered by economic collapse
- The enormous military spending has driven the U.S. debt to \$30 trillion, \$6 trillion more than the entire U.S. GDP
- The conflict with Russia is already failing. The ruble has risen to a seven-year high against the dollar
- Europe is heading for a recession due to rising oil and gas prices and fears that Russia could completely stop the supply
- The loss of Russian wheat, fertilizer, gas and oil due to Western sanctions is leading to chaos on world markets and a humanitarian crisis in Africa and the Middle East
- Rising food and energy prices, scarcity and crippling inflation bring deprivation, hunger, social unrest and political instability
- Putin warned NATO countries that they would "face greater consequences than ever before in history" if they intervened directly in Ukraine and ordered Russian nuclear forces to be put on heightened alert
- US nuclear weapons are stationed in Belgium, Germany, Italy, the Netherlands and Turkey
- US threatens if Russia uses nuclear weapons they would respond in kind
- At no time, not even during the Cuban Missile Crisis, were we closer to nuclear war

USA

- Biden has gone into the early, still mild stages of senility
- America spreads false propaganda that Russia and China are the villains trying to rule the world
- Biden, the shadow government, and Zelensky, staged a conspiracy against Russia believed by world state leaders and general non-thinking population
- USA murders top Al-Qaeda leader Zawahri in drone attack on July 31 which further incites hatred from Arabs
- The US-Pelosi provocative visit to Taiwan will have consequences resulting in further death
- The Americans destroyed the rule-of-order in Afghanistan which was good despite the dictatorship by Saddam
- Every self-thinking person should know America is secretly directly and involved in the Ukrainian war
- Americans often shot masses of war prisoners in the last world war
- In the last world war the USA bombed Dresden, Germany deliberately targeting residential areas because they house factory workers producing weapons
- The majority of the non-thinking people in Europe, such as Germany and the entire EU, have become dependent on America and do not dare oppose their evil and world-dominating agenda

War in Ukraine

- *The heavy weapons supplied by the USA to Ukraine are complicated and can only be operated by the American military and not the untrained Ukrainians which proves the Americans are directly involved in the war*
- The Ukrainian military murders its own compatriots using weapons from fallen Russians, as do mercenaries and adventurers
- Countless rapes are committed against the country's own girls, boys and women and later stabbed or shot but is hushed up
- The mercenaries indulge in their degeneration and joy of killing, as is often practiced in war
- Many Ukrainians are dying, however Zelensky does not care in the slightest
- Foreign ministers (Germany, EU) stir up international hatred prolonging the war against Russia
- The arms deliveries to Ukraine is a global concern and resulting world economic war could escalate
- If not for the USA the war in Ukraine would have ended long ago
- The conflict in Ukraine was a stroke of luck for the arms industry whose stocks are currently rising, as they needed a new conflict after Afghanistan
- The Ukrainian army simply shoots Russian prisoners without hesitation as do the Russians, dispose of Ukrainian prisoners
- Residential districts in Ukraine are being bombed and people murdered because they work in the weapons production facilities

Overpopulation

- Unnatural conditions have been created that man can no longer bring under control
- There is much fine plastic in the air, in the water, meadows, in forests and everywhere else, that the earth is contaminated
- The plastic is as fine as dust and settles in the lungs and intestines and enters the brain impairing function causing mental instability unknown to science
- Thousands of aerohormones or environmental hormones floating in the air will be the origin of the increase in diseases
- More than 13 million Earth-humans are killed every year by the poisoned air from aerohormones or endocrine disrupters
- Chemicals and tiny micro-sized plastic particles have poisoned all plant and life-forms on Earth including humans, to such an extent that there is nothing left on Earth that is not contaminated by some harmful substance
- On average the air has 32 micrograms of pollutants per cubic metre
- Alzheimer's, heart, Parkinson's, dementia and cancer, as well as strokes and other diseases are caused in part to the polluted air we breathe
- Global air pollution is the leading cause of death of all forms of environmental pollution
- Mankind is losing the ability to learn and acquire knowledge and grasp the truth and reality regressing to primitive expression and ridiculous talk
- Affects the fertility of men and women who become less able to conceive
- Women will be more affected by breast cancer in the future
- People lose more control over their behaviour and actions which leads to life crises
- Religions becomes popular and hatred against other religions rise, as racism and acts of murder will also increase
- Infant still-born deaths and preterm underweight newborns will increase
- Autism and heart disease will increase in the future, as will diseases of consciousness, depression and hyperactivity
- Drugs, alcohol and tobacco continue to be abused and cause health-damage and much evil for a long time
- Phasing out the burning of fossil fuels brings some reduction of CO2 emissions, but it will not fix pollution as cancers continuing to increase, as will all other ailments
- Humans contribute on average 2 tonnes of CO2 from breathing

Immune System

- A daily balanced diet and micronutrients strengthen the immune system
- Vitamins, minerals, trace elements and secondary plant substances work, (Vitamin A, C, D, E, B9, B12, folic acid, zinc and iron), are important
- Take omega-3 fatty acids found in fish in high quantities as well as in linseed and rapeseed oil
- Vitamin D and zinc are special importance for a normal function of the immune system
- The intestine is responsible for 77 to 83 percent of the immune defense of body and is the most important organ in the body
- The brain has an important role in the immune response for example stroke affects the immune response of the intestines and ongoing stress causes lasting damage to the immune system
- If the diet is not regularly changed the body cannot absorb the necessary variety of natural minerals which impairs the immune system and promotes obesity
- Obesity increases the susceptibility to infections and underweight is reflects a nutrient and mineral deficiency, negatively affecting the immune system
- Alcohol and cigarette hinders the body's ability to create antibodies for defence against pathogens weakening the immune system
- Other factors besides the immune system trigger a pathogen infection but no more is divulged
- The human body and all life forms are exposed to constant attacks from parasites, bacteria, viruses, fungi, microbes and poisons
- Pathogens typically enter the body through the mucous membranes, the throat, nose and the intestine, as well as the skin
- The spleen stores immune cells, which are then fed to the body when an immune defense is necessary
- Immune cells are also produced in the bone marrow
- The tonsils have a first defensive function against pathogens
- The lymph nodes and knot pathways simultaneously form a collection point for immune cells and antibodies
- Above the heart, the primary lymphatic organ the thymus stores the mature defense cells or T-cells
- The immune system has a natural immune system and a learned immune system trained by the human body
- For the immune system to do its job well, it must first 'know' the pathogen, which means that identification is required in order for the production of specific defense cells which destroys the pathogen
